We now have a model ship of the USS Salamonie.

It is approximately three feet long, four inches wide and twelve inches tall.

It was made by shipmate Henry Jaworski.

It took him two years to complete. Henry was on the Salamonie from 43-45.

It is in detail of the ship as it was during WW2 with the four 5" guns and Sea Plane and ect.

It was donated to the Museum, upon the passing of our crewmate by his family.

I have it here at my home and when I go to Warren, it will be put on permanent display. Had some minor damage done to it in shipment and is being repaired now.

After it is repaired, we will try and have pictures of it on the web site. Hopefully it will be sometime in January or early February.

USS Salamonie Bell

The bell is in my garage at this time. It has been cleaned and polished. Local 42 Plumbers and Steamfitters, Norwalk, Ohio, Joint Apprentice Committee is building a nice stainless steel stand for the permanent mounting of the bell for the museum as a public service project.

A local contractor (Deiderich Mechanical) has donated all the material for this project.

I have been working on this project for some time and have been taking pictures of the entire endeavor from the acquisition of the bell to the completion for the museum.

It will be on a disc when completed as a power point for all to see.

Hope to someday have it on the web site also if possible.

It will all be there for the July 4th celebration 2006.
